This set of writings represented a major shift of focus for Lessing, influenced by spiritual and mystical themes in Sufism, in particular by Idries Shah.[2] She later wrote several essays on Sufism which were published in her essay collection, Time Bites (2004).[3] Reception The Canopus in Argos was not well received by some reviewers and readers,[4] who felt that Lessing had abandoned her "rational worldview".[5] This prompted her to write in the preface to the third book, The Sirian Experiments:[6] I would so like it if reviewers and readers could see this series, Canopus in Argos: Archive, as a framework that enables me to tell (I hope) a beguiling tale or two; to put questions, both to myself and to others; to explore ideas and sociological possibilities. Even under desperate conditions, Mara's thirst for knowledge outpaces the thirst for water that, over the years, drives her--sometimes alone and sometimes accompanied by Dann, who as he grows up insists on following his own dreams--toward the icy North, where remnants of Earth's old technological glories await. Background When Lessing began writing Shikasta she intended it to be a "single self-contained book" but, as her fictional universe developed, she found she had ideas for more than just one book, and ended up writing a series of five.[1] The Canopus in Argos series as a whole falls into categories of social or soft science fiction ("space fiction" in Lessing's own words[1]) because of its focus on characterisation and social-cultural issues, and its lack of emphasis of the details of scientific technology.
